I

It begins right here—with me.
Action and success arise from within.
I hold the cards. And I am all in.

Will

Not can, not try, but absolutely will.
Without a doubt.

I WILL

Discover a world beyond my imagination.
Create and envision the new.
Build, engineer, rethink, invent, start up, and design solutions that will change the world.

THROUGH

Intelligence. Doggedness. Preparedness.
Won’t-take-no-for-an-answer-ness.

EDUCATION AND EXPERIENCE

At a one-of-a-kind university where action-based learning, global opportunities, and high value
Manifest from cutting-edge technology, state-of-the-art facilities, serious access, and a culture of innovation in the most exciting and high-impact fields.
In a city where a living laboratory surrounds you—and immerses you.

Giving you the power to say ...

I will.

Go ahead, say it.
Chicago’s Tech University
Illinois Tech is the only tech-focused university in the Chicago area. From skyscrapers to startups, Illinois Tech has fueled the city’s rise as a global metropolis.

Opportunity and Value
Illinois Tech is an engine of opportunity, providing the best ROI in the state and among the best in the nation.

Active Learning
At Illinois Tech students learn by creating, inventing, and solving—not just in the classroom.

THREE THINGS YOU’LL FIND ONLY AT ILLINOIS TECH—AND NO PLACE ELSE
Illinois Tech offers undergraduate programs in the following colleges and schools:

**Armour College of Engineering**
- Aerospace Engineering
- Architectural Engineering
- Biomedical Engineering
- Chemical Engineering
- Civil Engineering
- Computer and Cybersecurity Engineering
- Computer Engineering
- Electrical Engineering
- Electrical and Computer Engineering (Dual Degree)
- Engineering Management
- Materials Science and Engineering
- Mechanical Engineering

**College of Architecture**
- Architecture

**College of Computing**
- Applied Cybersecurity and Information Technology
- Applied Mathematics
- Artificial Intelligence
- Computer Information Systems
- Computer Science
- Industrial Technology and Management (transfer students only)
- Information Technology and Management
- Statistics

**Lewis College of Science and Letters**
- Applied Analytics
- Applied Physics
- Astrophysics
- Behavioral Health and Wellness
- Bioanalytical Chemistry
- Biochemistry
- Bioinformatics
- Biology
- Biology and Psychological Science (Dual Degree)
- Chemistry
- Communication
- Computational Chemistry and Biochemistry
- Digital Humanities
- Environmental Chemistry
- Food Science and Nutrition
- Forensic Chemistry
- Global Studies
- Humanities
- Medicinal Chemistry
- Molecular Biochemistry and Biophysics
- Physics
- Psychological Science
- Science, Technology, and Society
- Social and Economic Development Policy

**Stuart School of Business**
- Business Administration

**Academic Programs**

In addition to the undergraduate programs offered by each of these five colleges, students may go on to attend graduate school in any of these same colleges, or in one of Illinois Tech’s two other colleges:

**Chicago-Kent College of Law**
Chicago-Kent is nationally recognized among the top law schools in the country, and its intellectual property law, appellate advocacy, trial advocacy, and legal writing programs are highly ranked nationally.

**Institute of Design**
Since its founding as the New Bauhaus, the Institute of Design (ID) has grown into the largest full-time graduate-only design program in the nation. ID is widely considered among the leading design schools in the country and the world.

**Special Programs**

**Dual Admission Honors Law (leading to B.S./J.D. degrees)**
Begin your trajectory to law school during your undergraduate years. Open to all Illinois Tech majors, this program allows you to earn your B.S. from Illinois Tech and a J.D. from Chicago-Kent College of Law in six* years instead of seven. Illinois Tech is one of only a few tech-focused universities with a law school.

Law school classes are taken at Illinois Tech’s Chicago-Kent College of Law. Students have access to pre-law advising and LSAT preparation assistance.

*Due to program requirements, engineering and architecture students would earn their B.S. and J.D. degrees in seven years.

**Biology/Psychological Science Dual Degree**
- B.S. in Biology/B.S. in Psychological Science

Earn two degrees simultaneously in this challenging program geared toward pre-health students. You’ll differentiate yourself when applying to medical school, programs in public health, genetic counseling, or related areas; or graduate programs where biology and psychology intersect (e.g., neuroscience, brain science, and cognitive science).
Academic Minors

You can broaden your skills and pursue your other academic interests with a minor in one of a number of areas of study.

Just a few examples of academic minors include:

- Engineering Graphics and CAD
- Entrepreneurship
- Environmental Engineering
- Game Studies and Design
- History
- Human Resources
- Information Architecture
- Internet Application Development
- Leadership
- Literature
- Military/Naval Science
- Music
- Public Administration
- Rehabilitation Services
- Sociology
- Urban Studies...and many more!

Accelerated Master’s Degrees

Illinois Tech offers a special program that allows you to complete both your bachelor's and master's degrees in as few as five years. Bonus: You get to keep your undergraduate scholarships in your fifth year—and you pay the lower undergraduate tuition rate for graduate courses.

Examples include:

- B.S. in Applied Mathematics/Master of Data Science
- Bachelor of Information Technology and Management/ Master of Cyber Forensics and Security
- B.S. in Physics/Master of Health Physics
- B.S. in Biochemistry/Master of Food Safety and Technology
- B.S. in Social and Economic Development Policy/ Master of Public Administration
- B.S. in Civil Engineering/Master of Engineering in Environmental Engineering
- B.S. Business Administration/M.S. in Finance
- And over 50 more!

It’s focused, highly specialized, saves you money—and you can earn your second degree in one of more than 50 areas.

Our accelerated master’s program lets you design your own customized academic journey.

The average starting salary for students who earn an accelerated master’s degree is $72,538. (Class of 2019)

Pre-Health Programs

At Illinois Tech science, engineering, and technology are in our DNA. If you’re interested in going to medical school one day, our pre-med program can give you the best of both worlds—rigorous training and personalized academic experiences—and prepare you to get in.

We offer joint programs in medicine that can lead to a B.S. degree from Illinois Tech and either a D.O. or O.D. degree from schools in the Chicago area and beyond. Or you can minor in pre-medical studies, which ensures completion of all prerequisites for entrance into medical school and prepares you for your M1 year.

Illinois Tech’s Mies Campus is minutes away from some of the country’s best hospitals, and many of our faculty conduct research with leading medical schools. You’ll find opportunities for experience right here in Chicago.

Approximately 72 percent of Illinois Tech undergraduate pre-med students are accepted into health professions schools after graduation, compared to the national rate of 45 percent.

Dual Admission Programs

In addition to pre-medical studies, Illinois Tech offers several dual-admission programs that provide pathways to a medical career.

- Illinois Tech/Midwestern University Chicago College of Osteopathic Medicine (B.S./D.O.)
- Illinois Tech/Illinois College of Optometry (B.S./O.D.)
- Illinois Tech/Midwestern University Chicago College of Pharmacy (Pharm.D. 2+4)
- Illinois Tech/Lake Erie College of Osteopathic Medicine (B.S./D.O., B.S./Pharm.D., or B.S./D.M.D.)

Students who are selected for these programs will be guaranteed admission to osteopathic, dentistry, or pharmacy school. In some cases these programs are accelerated compared to traditional pathways.

These applications have additional admission requirements and deadlines on top of a regular application to Illinois Tech (see page 27).

For more about majors, minors, and academic programs in between, visit IIT.EDU/ACADEMICS
Undergraduate Programs

**BACHELOR OF SCIENCE (B.S.) DEGREES IN:**
- Aerospace Engineering
- Architectural Engineering
- Biomedical Engineering
- Chemical Engineering
- Civil Engineering
- Computer and Cybersecurity Engineering
- Computer Engineering
- Electrical Engineering
- Electrical and Computer Engineering (Dual Degree)
- Engineering Management
- Materials Science and Engineering
- Mechanical Engineering

Armour College of Engineering has been educating world-class engineers since the university’s founding in 1890. As a twenty-first-century engineering student, you’ll learn the principles of your profession and work in an interdisciplinary environment that emphasizes hands-on learning, teamwork, and leadership.

Our newly renovated John T. Retaliata Engineering Center is designed specifically to encourage an intersection of ideas, featuring spaces where you and fellow students can work together to develop the next cutting-edge idea.

At Armour College we integrate innovative thought, entrepreneurship, creativity, and design with engineering theory, research, and practice. You’ll get the chance to work on projects that are normally open only to graduate students and to apply what you’ve learned in the classroom to complex problems facing today’s global society.

**Undergraduate Programs**

Jasmine Baste

(Biomedical Engineering 3rd Year)

Orland Park, Illinois

“*The research opportunities in the engineering school are incredible. Because we are such a small school, it’s really easy to get involved early, and many professors are willing to take first- and second-years into their labs. Getting involved in research is a great way to learn more about biomedical engineering outside of the classroom and has opened a lot of doors for me. By being a part of a lab, I was able to compete at a national engineering competition among other top engineering schools and also to go to London to the global competition.*"

Jasmine participated in Armour College of Engineering’s Research and Development program and continues to work in Assistant Professor of Biomedical Engineering Abhinav Bhushan’s laboratory. Outside of the lab, Jasmine completed the 2019 Chicago Marathon, raising more than $2,300 for the Special Olympics. She is also a Camras scholar and an Alpha Sigma Alpha member, works as a student ambassador, and volunteers at a medical clinic for the uninsured.

Armour College offers students several opportunities to pursue dual degrees and advanced certificates in the field of engineering.

IIT.EDU/ENGINEERING
Life experiences outside the classroom are just as important as classwork. Engineering majors find these clubs of interest to them:

- American Institute of Aeronautics and Astronautics
- American Institute of Chemical Engineers
- American Society of Civil Engineers
- American Society of Heating, Refrigerating, and Air-Conditioning Engineers
- American Society of Mechanical Engineers
- Biomedical Engineering Society
- CyberHawks
- Illinois Tech Railroad Club
- Institute of Electrical and Electronics Engineers
- Material Advantage
- National Society of Black Engineers
- Sigma Xi at Illinois Tech
- Society of Hispanic Professional Engineers
- Society of Women Engineers

Illinois Tech engineering grads get hired by some of the most successful companies. Many of them have found employment with:

- Accenture
- Amazon
- British Petroleum
- Exelon
- Honeywell
- NASA
- Northrop Grumman
- Sargent & Lundy
- Shell
- SpaceX
- United States Army Corps of Engineers
- United States Environmental Protection Agency

Illinois Tech Engineering Themes and Armour R&D

We enhance our classroom experiences with “extras” through our Illinois Tech Engineering Themes program, such as lecture series, forums, interactive problem-solving exercises, professional site exploration, and team-intensive engineering projects that focus on water, health, energy, and security. Our automated Illinois Tech Engineering Themes Portfolio will aid you in building a personal online portfolio of your work.

The Armour R&D program allows you to take part in fundamental and applied research projects that address global challenges under the direct guidance of faculty mentors. The year-round sponsored program aims to give select students a hands-on experience with research and development, specifically the implementation of technology based on research findings.
There is no other place to study architecture in the United States like Illinois Institute of Technology. A direct descendant of Germany’s famed Bauhaus, IIT’s College of Architecture has helped define the course of modern architecture and architectural education in America—first under the direction of founding chair Ludwig Mies van der Rohe, perhaps the twentieth century’s most influential architect, and today, as a leading center of design innovation and research.

Our home, the Mies-designed S. R. Crown Hall, is a National Historic Landmark and one of the most significant buildings of the twentieth century. Our iconic Modernist campus features more work by Mies (the largest collection anywhere), as well as buildings by other noted architects, including Skidmore, Owings & Merrill, Helmut Jahn, Rem Koolhaas, and more.

By studying with us, you become part of this distinguished legacy of architectural excellence. Our faculty and graduates have shaped some of the world’s most important buildings and landscapes, redefined structures and mechanics, and made the world more sustainable and equitable.

As a student in IIT College of Architecture, you will learn to be agile and carve your own career path. We are the only school in Chicago to offer a five-year, NAAB-accredited Bachelor of Architecture degree, the fastest path to licensure after graduation. Our programs are also STEM-designated.

Our faculty—award-winning, practicing architects and scholars—are true leaders in design, technology, construction, visualization, history, and theory. Our studios, workshops, and labs are among the nation’s best. Every year, we invest in new technology, software, and learning opportunities to ensure that your education is the finest anywhere. And our connections to practices in Chicago—one of the world’s great architectural centers—are unrivaled.

We are consistently recognized as one of the nation’s most prestigious architecture programs. DesignIntelligence ranked our undergraduate program the 16th most admired in the United States and the most admired in the Midwest. The same survey found that our graduates are among the most desirable to employers. IIT College of Architecture alumni work in—and run—some of the most influential design practices in the country and around the world. With an Illinois Tech education, so can you.
Our Students’ Designs Become Reality

Our students benefit from working on architecture projects grounded in real-world problems and real-world sites. We don’t just design architecture—we make it. With an extensive, well-equipped fabrication lab at your disposal, as well as access to top-of-the-line facilities in the recently built Ed Kaplan Family Institute for Innovation and Tech Entrepreneurship, we have the resources to make your vision a reality.

One example of this ethos of making is our unique Design/Build program, which takes students and faculty around the world—from Puerto Rico to Germany to Ghana in the last few years alone—to create supportive community buildings and environments.

The 2019 Design/Build project: one-room schoolhouse in Loiza, Puerto Rico

Experiences & Careers

Life experiences outside the classroom are just as important as classwork. Architecture majors find these clubs of interest to them:

• AMERICAN INSTITUTE OF ARCHITECTURE STUDENTS
• AMERICAN SOCIETY OF LANDSCAPE ARCHITECTS
• NATIONAL ORGANIZATION OF MINORITY ARCHITECTURE STUDENTS

Illinois Tech architecture grads get hired by some of the most successful architecture firms. They have found employment with:

• FOSTER + PARTNERS
• JOHN RONAN ARCHITECTS
• KENGO KUMA AND ASSOCIATES
• KRUECK+SEXTON
• PERKINS & WILL
• SANAA
• SKIDMORE, OWINGS & MERRILL
• STUDIO GANG
Isabel Raymundo  
(Computer Science/Astrophysics Minor 4th Year)  
Chicago

I will

• make code to take crafts to space
• help strengthen the South Side of Chicago and give kids from the area the resources they deserve
• paint a mural

“Illinois Tech gives opportunities that I have never seen before. Its emphasis on projects, professional development, and research will undoubtedly advance me professionally. Illinois Tech gives you resources to create anything out of your wild imagination. It gives value by preparing you for a career, such as through the IPRO Program, where you can learn from students in other majors and create something completely out of this world.”

Isabel received a grant to implement programs that will strengthen local communities. Her program aims to engage engineers and other science professionals, as well as Illinois Tech students, as volunteers in an after-school program for children in Chicago.

College of Computing

The College of Computing explores cutting-edge advancements in computer science, modern fields of applied mathematics, and the latest in information and industrial technologies. Our specialized education prepares students not only to be fluent in advanced data sciences and tech, but also to be future innovators and thought leaders in these fields.

Our hands-on, real-world programs allow you to learn from and work with faculty who are pushing the boundaries of artificial intelligence, cybersecurity, big data, cloud computing, manufacturing, information technology, applied analysis, computational mathematics, discrete applied mathematics, mathematical finance, machine learning, statistics, stochastics, and other areas of expertise.

If you have a passion for computing and tech, you will find no better place to study than at Illinois Tech. Our location within the burgeoning tech center of Chicago and our connections with the local tech industry provide you with access to meaningful internship and career opportunities found only in a world-class city.

Undergraduate Programs

BACHELOR OF SCIENCE (B.S.) DEGREES IN:

• Applied Cybersecurity and Information Technology
• Applied Mathematics
• Artificial Intelligence
• Computer Information Systems
• Computer Science
• Statistics

BACHELOR DEGREES IN:

• Industrial Technology and Management (transfer students only)
• Information Technology and Management
Life experiences outside the classroom are just as important as classwork. Computing majors find these clubs of interest to them:

- American Statistical Association Student Chapter
- Association for Computing Machinery
- Association for Computing Machinery—Women
- Association of Information Technology Professionals
- Association for Women in Mathematics Student Chapter
- High Technology Crime Investigation Association
- Information Technology and Management Organization
- Machine Learning at Illinois Institute of Technology
- Society for Industrial and Applied Mathematics Student Chapter
- Stars Computing Corps

Illinois Tech computing grads get hired by some of the most successful companies. Many of them have found employment with:

- Accenture
- Amazon
- Apple
- Discover
- Goldman Sachs
- Google
- Grubhub
- JPMorgan Chase
- KPMG
- Motorola Mobility
- Motorola Solutions
- NASA
- Northrop Grumman
- Twitter

Anna Kong (Computer Science 4th Year) and students from throughout the country participated in the 10-week National Science Foundation Research Experience for Undergraduates program BigDataX at Illinois Tech. BigDataX focuses on undergraduate research in both theory and practice of big data computing at extreme scales.

“I really wanted to do research,” Kong says. “As a data science accelerated master’s student, I’ve worked with big data before, but I had never done my own research. I saw this as a good opportunity to get that experience.”

Students participated in lectures, tutorials, and brainstorming sessions, but spent most of their time conducting research. They also toured the supercomputer facilities at Argonne National Laboratory where they saw computer science research applied to other disciplines, including medicine, biology, material science, and physics.

$5,000 Undergraduate Research Stipends

We offer a number of $5,000 Undergraduate Summer Research Stipends so that select undergraduates can conduct research for 10 weeks during the summer. This financial support allows students to participate in research work between school terms and to catalyze their scholarly activities and productivity.
I will

- energize the Black community in Chicago
- be a critical thinker
- experience every underground culture Chicago has to offer

“...energize the Black community in Chicago. The psychology program eases you into the world of research and entices you with opportunities to present at conferences, co-author papers, and learn how to run your own studies, but they also teach you to really enjoy the process of research (so you’re hooked on it forever).”

Alexandra Montgomery
(Psychology ’20)
Chicago

Lewis College of Science and Letters

The academic programs within Lewis College of Science and Letters are grounded in rigor and relevance, providing students special preparation to succeed in fields that require exceptional application of knowledge.

We challenge our students to think critically and solve complex human problems with the aid of sophisticated technology. You’ll gain practical experience alongside faculty who are dedicated to bridging the gap between theory and application, ideas and action.

Lewis College provides multiple pathways to the academic, professional, and entrepreneurial worlds. You’ll experience the benefits of a small school, coupled with major research capacity and all the advantages of the global metropolis of Chicago.

Undergraduate Programs

BACHELOR OF SCIENCE (B.S.) DEGREES IN:

- Applied Analytics
- Applied Physics
- Astrophysics
- Behavioral Health and Wellness
- Bioanalytical Chemistry
- Biochemistry
- Bioinformatics
- Biology
- Biology and Psychological Science (Dual Degree)
- Chemistry
- Communication
- Computational Chemistry and Biochemistry
- Digital Humanities
- Environmental Chemistry
- Food Science and Nutrition
- Forensic Chemistry
- Global Studies
- Humanities
- Medicinal Chemistry
- Molecular Biochemistry and Biophysics
- Physics
- Psychological Science
- Science, Technology, and Society
- Social and Economic Development Policy

Eating Away a Plastic Disaster

Illinois Tech biology students, along with engineering students, worked to genetically modify algae that could eat away at the growing problem of ocean plastics. The team presented its work at the International Genetically Engineered Machine (iGEM) Competition at Massachusetts Institute of Technology.
Applied Research with Relevance

Though hundreds of colleges and universities offer liberal arts and science programs, Lewis College students have the advantage of studying alongside engineers, architects, and business people. We regard mentoring and cross-disciplinary networking as cornerstones of our distinctive education.

Accelerated Master’s Programs

Special degree programs allow you to take graduate courses and apply for advanced standing in a master’s degree program, earning both degrees in as few as five years. Examples include:

- B.S. in Psychological Science/ M.S. in Rehabilitation and Mental Health Counseling
- B.S. in Psychological Science/ M.S. Industrial-Organizational Psychology
- B.S. in Social and Economic Development Policy/Master of Public Administration (M.P.A.)
- B.S. in Biology/M.S. in Food Safety and Technology
- B.S. in Chemistry/M.S. in Environmental Management and Sustainability
- B.S. in Physics/M.S. in Computer Science

HONORS LAW PROGRAM
HONORS PHARMACY

Experiences & Careers

Life experiences outside the classroom are just as important as classwork. Lewis college majors find these clubs of interest to them:

- AMERICAN CHEMICAL SOCIETY
- AMERICAN MEDICAL STUDENT ASSOCIATION
- ART AND DIGITAL DESIGN
- ASSOCIATION FOR PUBLIC ADMINISTRATION AT ILLINOIS TECH
- FOOD SCIENCE CLUB
- HEALTH PHYSICS SOCIETY
- MEDLIFE
- PSI CHI
- SOCIETY OF PHYSICS STUDENTS

Graduates of Lewis College find career paths in many areas—business, research laboratories, digital media, pharmaceuticals, public policy, education, government, and human resources—and at organizations such as:

- ACCUGEN LABORATORIES, INC.
- ARGONNE NATIONAL LABORATORY
- CHARLES SCHWAB & CO.
- COOK COUNTY HEALTH AND HOSPITALS SYSTEM
- DELoitTE CONSULTING
- FACEBOOK
- FLAVORCHEM CORPORATION
- Groupon
- MICROSOFT
- TARGET
- UNITED AIRLINES
- WORLD BANK
**Undergraduate Programs**

**BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION (B.S.)**

**Accelerated Master’s Programs**

- B.S./Master of Public Administration (M.P.A.)
- B.S./M.S. Finance
- B.S./M.S. Marketing Analytics
- B.S/M.S Technological Entrepreneurship

**Specializations for Business Majors**

- Applied Economics
- Applied Mathematics
- Architecture
- Construction Management
- Environmental Management
- Finance
- Human Resource Management
- Information Technology
- Life Sciences
- Marketing
- Mechanical Engineering
- Psychological Science

**Minors for Non-Business Majors**

- Business
- Economics
- Entrepreneurship
- Finance

**I will**

- help rebuild Chicago’s infrastructure
- set up mission trips to a foreign country
- go cliff jumping in Greece

---

**Stuart School of Business**

Illinois Tech’s Stuart School of Business is the business school of choice for those who expect more than just a typical degree in business administration. It’s a new type of business education for those who want to be leaders in the next economy—and in a world where technology is the foundation of innovation. This degree translates into a real career advantage, preparing you with the skills needed to make a meaningful impact on an organization’s success.

Our programs emphasize analytics and quantitative methodologies, hands-on learning, and real-world problem solving. You’ll learn how to collaborate with—and lead—interdisciplinary teams by working on highly innovative, technology-driven projects that span the gamut of engineering, science, and mathematics, providing a foundation for a well-rounded knowledge base.

---

**Christopher Reed**

(Business Administration/Construction Management Specialization ’20)

Palos Hills, Illinois

“**I will**

- help rebuild Chicago’s infrastructure
- set up mission trips to a foreign country
- go cliff jumping in Greece

**Christopher was a member of the varsity soccer team and Beta Gamma Sigma. He says that attending school in Chicago enabled him to acquire internships that prepared him for a professional career. He is now a project engineer at Walsh Construction, a position that has included working on the expansion of O’Hare International Airport.**
Life experiences outside the classroom are just as important as classwork. Business majors find these activities of interest to them:

- **BOARD OF ADVISORS MENTORSHIP PROGRAM**
- **CFA INSTITUTE RESEARCH CHALLENGE**
- **COLLEGIATE ENTREPRENEURSHIP ORGANIZATION**
- **PRMIA RISK MANAGEMENT CHALLENGE**
- **UNDERGRADUATE BUSINESS COUNCIL**

Illinois Tech business grads get hired by some of the most successful companies. Many of them have found employment with:

- **BANK OF AMERICA**
- **BMW LOGISTICS**
- **CALAMOS INVESTMENTS**
- **DISCOVER**
- **MICROSOFT**
- **NORTHERN TRUST**
- **PEPSICO**
- **PWC**

Entrepreneurship

Stuart courses include a focus on entrepreneurship and innovation, and feature numerous opportunities to work on projects for real clients in the Chicago area. Outside of the classroom, a variety of entrepreneurial and financial student competitions allow you to apply your skills and gain recognition from your peers and future employers.
Welcome to Your New Classroom

Illinois Tech’s Ed Kaplan Family Institute for Innovation and Tech Entrepreneurship is our new home for big ideas. The Kaplan Institute is the HQ of the IPRO Program, Idea Shop, world-renowned Institute of Design, and work spaces where your entrepreneurial endeavors can incubate and flourish. Special programming fosters creativity, ideation, and no-holds-barred thinking—and is designed to help students prepare to launch the next great invention.
Illinois Tech’s signature programs are rooted in hands-on learning—and this experience is unparalleled at other universities. Our students are exposed to hands-on learning in their courses and outside the classroom, and they can experience it beginning in their very first year of study.

Interprofessional Projects (IPRO) Program
Since 1995 our IPRO Program has been a bragging right for Illinois Tech. It remains one of just a few programs like it in the country. IPRO joins students from various majors to work in teams to solve real-world problems, often on behalf of companies and nonprofits that sponsor the projects. IPRO allows you to gain firsthand experience working with engineers, scientists, business people, psychologists, technologists, and architects to attack a challenge and create smart solutions with measurable impacts.

Idea Shop
Every idea needs fuel to be successful. Illinois Tech’s Idea Shop helps to ignite ideas with cutting-edge tools to help students transform their new products and inventions into reality. This state-of-the-art, rapid-prototyping lab houses 3D printers and scanners, multiple CNC milling machines, a vacuum former, and laser cutter. Full-time staff advise students on everything from equipment use to product marketability. You can use the Idea Shop for a class project, research project, or your own personal endeavor.

“I took an IPRO abroad over the summer, and I learned an incredible amount about tsunami safety, which was the topic of the class, and communication. I worked hard to communicate between two different focus groups, each led by a different professor, and I will definitely apply the lessons I learned throughout the course of my life.”

Megan Burrill
(Materials Science Engineering 3rd Year)
Truckee, California
Illinois Tech students are committed to solving the world’s grand challenges. They come to our university to learn from world-renowned faculty who share their desire to change the world. This is Illinois Tech’s legacy—one that our all-star alumni have helped to perpetuate over more than 130 years of innovation.

Through research, special course projects, volunteer outreach, and many other opportunities, you will conduct relevant, high-impact work. Under the mentorship of your professors, you will have access to opportunities at locally based national laboratories such as Argonne and Fermilab, leading medical schools, government and finance organizations, architecture and design firms, tech incubators, nonprofits, and more.

IIT.EDU/RESEARCH
Elevate is the umbrella organization that connects Illinois Tech students with these experiential learning opportunities. These include on- and off-campus research, internships and co-ops, study abroad, and additional opportunities such as short courses to further round out your education.

For more information on the Elevate program visit the Elevate website: admissions.iit.edu/elevate.

“Elevate gave me my first notable professional experience. It opened up networking opportunities, as well as the ability to interact with researchers of differing academic backgrounds. It was extremely informative to not only discuss their research in the lab, but also to hear about the experiences that led to them becoming research professionals. As the youngest and least experienced in the laboratory, it was highly insightful to have the interactions with both my assigned mentor and others working in the lab.”

Alysia DeSimone
(Chemical Engineering 4th Year)
Downington, Pennsylvania

Through the Elevate program, Alysia participated in a 10-week summer research experience that allowed her to continue her research of bi-phasic photocatalysis. While working in the lab every day, she ran trials and analyzed the effectiveness of nanocavities in a phase change reaction. Alysia received mentorship from her supervising faculty member, Assistant Professor Jean-Luc Ayitou, a 2018 National Science Foundation CAREER Award-winning researcher.

“My experience in Japan was unlike anything I could have ever imagined. I was always looking forward to this experience, since I have a vested interest in Japanese culture, such as their literature, food, and customs. My experience working on an IPRO in Japan that was relevant to a situation Japan was facing was incredibly fulfilling. Everything about the trip—from the group excursions to various historical sites and trying out different foods, to the lectures and presentations—was immensely rewarding, both as a student of Illinois Tech as well as a visitor from the United States. I really hope I can go back soon!”

Gerard Jumanan (Global Studies ’19)
Student Life

Tech Traditions

With endless options come unlimited opportunities to discover: diversity, inspiration, languages, landscapes, viewpoints, technology, history, future, surprises—and most important, yourself.

Pumpkin Launch
That’s not your imagination—it’s just a pumpkin flying through the air. For 16 years Illinois Tech’s Pumpkin Launch has tested the engineering prowess of student teams who design and build trebuchets, catapults—you name it—to see whose contraption can hurl a pumpkin the farthest.

The Bog
This subterranean on-campus hangout has been a gathering space for students since 1962 (fact: it’s on the former site of an actual bog). Go bowling, play video games, or check out a band—and don’t forget to grab some of The Bog’s legendary waffle fries.

Esports Excellence
Illinois Tech’s competitive computer gaming program boasts some of the country’s top players. With more than 30 competitors and 240 members in our esports club, and a roster of competition and viewing events, Illinois Tech’s esports community runs deep.

Scarlet Hawk Athletics

**Illinois Tech is a member of NCAA Division III.**

We’re proud of our legacy of excellent student-athletes. Our small, private university offers student-athletes personalized attention and one serious advantage: more opportunities for competition time.

**Men’s:** Baseball, Basketball, Cross Country, Lacrosse, Soccer, Swimming and Diving, Tennis, Track and Field, Volleyball

**Women’s:** Basketball, Cross Country, Lacrosse, Soccer, Swimming and Diving, Tennis, Track and Field, Volleyball

Illinois Tech is a member of the Northern Athletics Collegiate Conference. Conferences provide the pathway for regional and national rankings and access to championships.
Sleep? Who, Me?

Let’s be real. Illinois Tech students know there’s plenty of time to sleep—say, sometime right around retirement. Until then, at least you can live on one of the most beautiful college campuses in the country, surrounded by friends, and in a safe space just steps from class.

Jeanne and John Rowe Village residence hall was named one of the “coolest dorms in the nation” (U.S. News & World Report) and boasts amazing skyline views.

Extra Extras: The Nosh

You’ll never go hungry at Illinois Tech. Our expansive dining options range from pizza to vegan, from tacos to gluten-free, and everything else you can pile on your plate. Students help to select the menus each semester, and our dining service offers a Teaching Kitchen where you can explore culinary and nutrition literacy. There is a lot more than traditional cafeteria service—check out on-campus locations for Saffron Indian and Middle Eastern and Halal foods, Asiana Cuisine and Tea House, and Do-Rite Donuts.

Gone Greek or Gone Geek?

You can do both at Illinois Tech. Our eight fraternities and two sororities break the old stereotypes, emphasizing academics, leadership, and community. You can be your own individual and be a part of a supportive community.
People from around the world come to Illinois Tech’s Mies Campus to view the buildings designed by legendary architect and former head of our architecture program Ludwig Mies van der Rohe. It’s easy to see why: *Forbes* magazine named Mies Campus one of “America’s most beautiful college campuses.” From its cutting-edge buildings and lush green spaces to its proximity to Chicago and Lake Michigan, our Mies Campus has a style all its own.

**“CAMPUS IN THE PARK”**
Illinois Tech’s Mies Campus landscape is the brainchild of Mies and landscape architect Alfred Caldwell, who envisioned a “Campus in the Park” situating orthogonal Modernist buildings alongside grassy fields and sprawling canopies of trees.
THE McCORMICK TRIBUNE CAMPUS CENTER
A signature feature of Rem Koolhaas’s award-winning building is its Exelon Tube, which Chicago “L” trains run through en route to downtown and the South Side.

JEANNE AND JOHN ROWE VILLAGE
This Helmut Jahn-designed student residence hall has a rooftop deck with amazing views of the Chicago skyline.

S. R. CROWN HALL
Home to the College of Architecture, Crown Hall is a National Historic Landmark and a Mies van der Rohe masterpiece of column-free, open-span design. Time magazine calls it “one of the world’s most influential, inspiring, and astonishing structures.”

ED KAPLAN FAMILY INSTITUTE FOR INNOVATION AND TECH ENTREPRENEURSHIP
Designed by current Illinois Tech Professor John Ronan, the Kaplan Institute is enclosed in a dynamic façade that varies the amount of solar energy entering the building through sophisticated pneumatics.

GEORGE J. KACEK HALL
Completely renovated in 2020 and open for first-year student occupancy, Kacek Hall, designed by Ludwig Mies van der Rohe, has expansive lounges and postcard views of the city and campus.

Mies Campus is less than 1 mile from Lake Michigan.

One of the 200 “Most Important Works of Architecture in the U.S.”
—American Institute of Architects, on Mies Campus

Our entire Mies Campus is on the National Register of Historic Places.
Our Hometown: Chicago

The home of the Italian beef, deep-dish pizza, and the Vienna Beef hot dog (hold the ketchup!) is also the city that gave us the skyscraper, open-heart surgery, and reverse-flowing river technology. There’s no place else like Chicago, and we’re proud to call the Windy City our home.

Culture and Activities

Whether you’re into art, sports, music, food, improv, shopping, green spaces, museums, architecture, or all of the above and then some, Chicago is a vibrant city that welcomes you to define your own experience—and a place where you’ll never be bored.

Community

Midwestern nice sums up the Chicago vibe. We’re a big city where people look out for one another. Some 77 neighborhoods make up Chicago, including the funky and historic Bridgeport, Bronzeville, and Chinatown areas surrounding Mies Campus. This is a town with more languages than you can count and a place where the smile unites us.

Thriving Tech Ecosystem

Chicago is a great global city (just ask Google, Grubhub, Orbitz, or any of the thousands of other companies with headquarters here). What does that mean for Illinois Tech students? Access to jobs in a diverse range of industries including a fast-growing tech sector. Illinois Tech is a pipeline for talent in Chicago, a city where an Illinois Tech degree is recognized and rewarded.

One of the “top 10 cities for technology careers”

—CIO Magazine
Want More Music?
Chicago is internationally renowned for its music influence: gospel, jazz, blues, house. If you play an instrument, be sure to bring it with you: all Illinois Tech students can take classes at VanderCook College of Music, a highly renowned music school, which is located on our campus.

Get Out and Get Around
Because of Illinois Tech’s proximity to downtown Chicago, you’ll find an abundance of convenient transportation on campus. Every Illinois Tech undergrad receives a Ventra U-Pass, which gives you unlimited access to CTA public transportation citywide.

Pick up a special Divvy pass for students, which allows unlimited bicycle rides throughout the city.

How to Apply

Illinois Tech partners with our transfer students to make the application process and the transition to life at Illinois Tech as seamless as possible. Our admission and financial aid officers will help you through the admission process—from before you actually submit your application through your first day on campus.

APPLICATION FOR ADMISSION

Complete and submit the Illinois Tech Application for admission online. There is no application fee.

GO.IIT.EDU/TRANSFER-APPLY

TRANSCRIPTS

Send your official transcript(s) to the Office of Undergraduate Admission. An official transcript is sealed (unopened) in the envelope or sent electronically directly from the institution to Illinois Tech. We require transcripts from all colleges attended, regardless of financial or academic standing, length of attendance, or length of time since attendance. If you have fewer than 30 semester hours of transferable college work earned after high school graduation, you will be required to submit:

- Official high school transcript(s)
- ACT or SAT I scores (optional)

Have official SAT I or ACT scores sent to the Office of Undergraduate Admission. Illinois Tech’s SAT code is 1318; the ACT code is 1040.

MAILING ADDRESS

Illinois Institute of Technology
Office of Undergraduate Admission
10 West 33rd Street
Perlstein Hall, Room 101
Chicago, IL 60616

ELIGIBILITY

Transfer applicants must be in good academic standing at the college they attended most recently in order to be considered for admission to Illinois Tech. Students currently on academic probation, or who have been dismissed for academic or other reasons, will not be considered for transfer admission. Students also must be in good financial standing at all previously attended colleges/universities. Transfer admission is based on a cumulative grade point average (GPA) and individual grades in all courses that apply to the major you wish to study at Illinois Tech.

ARCHITECTURE PROGRAM TRANSFERS

Students accepted into the architecture program will be asked to submit a hard copy or electronic portfolio if they have significant coursework in architecture/art to determine transferable credit for these courses. Get ahead and start organizing your portfolio with your projects and class syllabi. The College of Architecture will contact students directly to request portfolios.

SPRING ADMISSION DEADLINES (classes begin in January)

November 15: Admission deadline for international students living outside the U.S.
December 1: Admission deadline for students living in the U.S.

FALL ADMISSION DEADLINES (classes begin in August)

May 15: Admission deadline for international students living outside the U.S.
August 1: Admission deadline for students living in the U.S.

TRANSFER CREDIT

Courses from accredited colleges/universities are acceptable for transfer and must be comparable in nature, content, and level to those offered at Illinois Tech.

- A maximum of 68 semester hours of transfer credit is permitted from a two-year college.
- There is no maximum number of hours of transfer credit permitted from a four-year college; however, your final 45 semester hours must be completed at Illinois Tech.
- Transfer credit will be accepted for courses completed with the equivalent grade of “C” or better. A grade of “C–” is not acceptable for transfer credit.

RECOMMENDED COURSES

Transfer guides are available online at go.iit.edu/transfer-credits. These useful tools ensure you are taking all the right classes before you enroll at Illinois Tech. Students pursuing a degree in the Lewis College of Science and Letters, College of Computing, or Armour College of Engineering should take physics and calculus prior to transferring. Please speak with your admission counselor to help plan your coursework for your intended major of interest.

COURSE EQUIVALENCIES AT LOCAL COMMUNITY COLLEGES

If you attend one of the Chicago-area community colleges listed below, we can help take the guesswork out of transferring. Simply visit our website and find your school and your intended major. You will see exactly which courses at your community college will count toward a degree from Illinois Tech. You are not required to complete all the courses listed on our website to apply as a transfer student; they’re merely intended as a guide to help you chart the path that will best serve you in the transfer admission process.

Financing Your Degree

Think college is expensive?

It’s important to consider not just the cost of your education but also the long-term value. Illinois Tech creates opportunities in the most in-demand fields—and the returns for our graduates in both the workplace and their daily lives are well documented.

LEARN MORE ABOUT FINANCIAL AID AT IIT.EDU/FINANCIAL-AID

The Financial Aid Process at Illinois Tech

Receive scholarship award letter upon admission to Illinois Tech
Submit FAFSA online at www.fafsa.ed.gov

Transfer Scholarships

TRANSFER TUITION SCHOLARSHIP
All domestic transfer students are eligible for Transfer Tuition Scholarships (starting at $14,000). All transfer students will automatically be considered for this merit-based scholarship when their application for admission is reviewed.

TRANSFER LEADERSHIP SCHOLARSHIP
The Transfer Leadership Scholarship (formerly Presidential Scholarship) is an educational initiative that provides support to students at two-year institutions who go on to study within all fields of study at Illinois Tech. This scholarship is $30,000 per year in tuition as well as a one-time $5,000 Elevate award.

PHI THETA KAPPA SCHOLARSHIP
Active members of Phi Theta Kappa (PTK) are eligible for the Phi Theta Kappa Scholarship (up to $5,000 per year) upon proof of PTK membership when applications are reviewed. The scholarship is awarded at the time of acceptance, and notification appears on applicant’s merit scholarship letter.

CHICAGO STAR SCHOLARSHIP
Students participating in the Chicago STAR program through the City Colleges of Chicago with a 3.0 GPA or higher will receive a $25,000 per year tuition scholarship. STAR students should also join the Fast Forward to Illinois Tech program before transferring to Illinois Tech.

CHICAGO POLICE AND FIRE DEPARTMENTS SCHOLARSHIP
In honor of their service to the City of Chicago, Illinois Tech offers $20,000 annual scholarships to the children and grandchildren of members of the Chicago Police Department and Chicago Fire Department. The Chicago Police and Fire Departments Scholarship is also open to the children and grandchildren of members of the Chicago Paramedic Department.

PARTNERSHIP COLLEGE SCHOLARSHIPS
Illinois Tech is proud to partner with community colleges around the area to create a seamless transfer path into select majors at Illinois Tech. Transfer students who participate and successfully complete these programs will receive a $25,000 per year tuition scholarship upon admission to Illinois Tech.

We offer this scholarship to students who participate in the following programs:
- Triton College GENIUS Program
- College of DuPage Guaranteed Admission Partnership
- Wright College of Engineering Guaranteed Admission Partnership

PLEASE NOTE: If a student is eligible for multiple Illinois Institute of Technology merit scholarships throughout the admission process, the university will award the highest merit award for which the student is qualified. Students may not combine multiple awards.

Courses from accredited colleges/universities are acceptable for transfer and must be comparable in nature, content, and level to those offered at Illinois Tech.

- Academic and career coaching services
- Guidance in preparing transferable course credits and a transfer schedule
- Personal and professional development opportunities on Illinois Tech's campus
- Opportunities to take summer courses at Illinois Tech at discounted rates
- Invitations to on-campus Illinois Tech student events throughout the year
- Eligibility for special $25,000 scholarships for Chicago STAR Scholars, Triton College GENIUS Scholars, and students enrolled in our Guaranteed Admission program with Wright College and the College of DuPage

The best way to learn about life as a Scarlet Hawk is to talk with one of our students!
Virtual sessions and student-led tours are offered daily.

Discover Illinois Tech Colleges
Offered monthly
This virtual event features a deeper dive into our five academic colleges so you can learn more about the majors that interest you.

Daily Individualized Visits
Pick a day that’s convenient for you to visit with an admission counselor, take a tour, meet our students, hear from our faculty, visit a virtual class, and just get to know Illinois Tech.

Webinars
Throughout the semester we’ll be hosting several webinars covering special topics, including financial aid and scholarships, application tips, student life, research, and more. All webinars are open to first-year and transfer students.

Parents and Families!
Illinois Tech welcomes you to learn more about our university. Our online forum just for parents and families provides information about connecting a student with Illinois Tech. Visit us along with your student, and view our Undergraduate Admission page for families, which includes a parent-focused list of resources from deadlines to financial aid to safety:
In 1890 Illinois Institute of Technology was founded in order to lift up people of all backgrounds with an education that would help them meet the needs of the age. Rankings based on the United States Department of Education College Scorecard, which offers the public access to years of federal government data on U.S. colleges and universities, show that 130 years on, Illinois Tech is fulfilling its mission.

Occupational earnings power looks at the mid-career salaries of alumni in each occupation that they go into, regardless of whether that occupation is a high-paying field. According to Brookings, Illinois Tech alumni out-earn graduates in the same fields from every other Chicago-region university, including University of Chicago, Northwestern University, and University of Notre Dame.
